"We can't judge completely our exercise, as we need to watch it and analyze, but overall we are glad with the score. We have to admit, that it was really difficult, as we have to compete at very late time. It's 11 PM by local time already, we are just not used to it" - mentioned the girls, altogether with their coach.

"The final construction of the program of the free duet is decided by the whole team, involving all of the coaches and the girls as well, but obviously, the last decision is coming from the head coach."

“We are hoping for the best in the final tomorrow, we will surely fight until the very end.”

“We are amazed with the location, we feel ourselves like princesses, as we have the castle behind the pool and of course we took already like a million selfies. The location is beautiful, the pool is fantastic, we just feel the urge to go and train as much as we can, enjoying the conditions. We would like to thank Budapest for the beautiful event and the outstanding organization.”

The final of the Duet free routine will take place tomorrow at 11 AM at the City Park venue in Budapest.
