SUCCESS, CELEBRATION AND FLOWERS

2017.07.25. 16:09 CET

Floristry is a profession that requires creativity and imagination, a number of florists in Hungary do it at an artistic level, and their works of art carry their mark.

A Hungarian guy made headlines in April 2016, Tamás Mezőffy was chosen the best florist in Europe. However, it was not only Tamás, but many others who also represented Hungary in several European and world class competitions.

Persistent work of one's life, and the strength of body and spirit can make you successful at any test, no matter whether you are a florist or a top athlete.

What could be a better expression of our gratitude for the humble work of our athletes and their attendants than a gift carrying the mark of the work and love of one's life: FLOWERS!

Join us and be part of a spectacular and blossoming awards ceremony and final show!
