# 17th FINA World Championship: More than 20,000 tickets have been already sold!

**2016.12.08. 15:44 CET**

*Every sport loving fan have dived into the World Championship deeply, that's what the ticket sales are showing! Since the online sale opened, one week ago, to be precise, an incredible number of tickets have been booked.*

The 17<sup>th</sup> FINA World Championship has opened the gates for the first part of the ticket sales on the 1<sup>st</sup> of December. Even though the sale is only a limited and small part of the total tickets, fans have shown great interest.

More than 13,000 people will be certainly there at one of the swimming competitions next summer at Dagály Swimming Complex and more than 4,000 water polo tickets have been sold already.

It is interesting to see how many people are interested in watching the High Diving at the venue on the Danube, but it makes sense. Why is that? Well, the men will jump from 27 meters and the women from 20 meters high into the pool, facing the marvellous view of the Parliament at the temporary pool - is there any more exclusive and spectacular sight?

The site for the ticket sale is still open and offers great seating, [can be accessed here.](#)

We have already got many questions and letters whether the event pass will be available for the World Championship or not. In this context, for the time being we can only say that the negotiations are still taking place about this. As soon as there is any new, detailed information regarding the event pass, we will post it on the official website of the World Championship.
