Fina Partnes visited the new complex

2016.02.02. 13:00 CET

The Partners of FINA arrived to Budapest to join the annual FINA Gala. Beside the celebration they also worked. For instance they have visited the construction site of the new swimming complex

"We all really enjoyed. It was an amazing sight being inside the new complex. It will be huge and I am sure that it will host a huge and memorable event, too. The sizes are impressive, just like the plans what we were shown. Hardly can wait to see the competitions in 2017." -said Steve McFarland, from Duraflex.

The weather was not the perfect, but some pretty good pictures could have been made.
