Flash interviews, men's 5 km

2017.07.15. 11:53 CET

Flash interviews with the medallists after the men's 5k race.

Gold medallist, Marc-Antoine Olivier, FRA, 54:31.40

I haven't realized what I did, I wouldn't have thought that I could win during the competition. We couldn't yet analyze my race with my coach, it's a whole new experience. It's time to settle down.

Silver medallist, Mario Sanzullo, ITA, 54:32.10

It's my first international medal, so I'm absolutely delighted. It's a fantastic feeling. It was a very strong and tough race, I tried to do my best. The water was perfect, the atmosphere was fascinating. For the first time in Hungary this is my first international medal, so I love this country.

Bronze medallist, Timothy Shuttleworth, GBR, 54:42.10

I started off very strong and tried to swim easy at the middle. Unfortunately I slowed down for the last part of the course. The water was quite warm, ideal for me. This was my first competition in Hungary, I really enjoyed it, I hope I can come back.
